Distributor Services Manual

VERSION: V2.1 // November // 2024

Here for **you.**

INTRODUCTION

Distributor Services Manual

The distributor services manual places you in the lead by enabling you to utilize the range of services in the distributor login of mfs.kfintech.com.

- The manual provides you with complete information support that includes client information, transaction information, Business information and overall market information.
- The manual provides you with an In-depth knowledge of building customized reports that are convenient to use.
- The manual presents focused explanation of the core features and also the complexities of the online, mail back and subscription services provided on the website.
- The whole objective of enabling services is to provide ready, pre/post-processed information that would go a step further in business decision making for the distributor.
- In the following sections, we attempt to provide an insight to the various services, which should help a distributor to get more information about his clients and help him get a complete overview of the business done with adequate MIS reports to support various requirements.

What Does the Handbook Offer?

- Our portal, mfs.kfintech.com is an integrated and client focused portal catering to the Mutual Fund Services (www.mfs.kfintech.com) is an integrated and client focused website catering to the mutual funds segment of the financial services industry.
- It addresses the twin requirements of business development and client servicing which are the objectives of any mutual fund.
- We take pride in presenting to you some of the key highlights of the website and the distributor services being offered.

Login & Registration

Distributor has to click on Sign Up on the login page of Distributor Services and populate the mandatory fields in a step wise process, which is:

- Verification of ARN related details as per COMS data (PAN / email id & Mobile No).
- Verification of mobile no through One Time Password (OTP) mechanism.
- Self-generation of User id and Password.
- Confirmation mail will be sent to the CDMS registered mail ID.

In case of Forgot Password, distributor has an option to reset the password online by clicking on "Forgot Password" option wherein they have to give the inputs "user id" & "registered mail id" and Password will be triggered to the registered mail ID.
